a. Pridge ABST-B 19 over field path near Glambook. Opened to traffic on 16 l'arch.

.. 3 ...

- v. Bridge F 101 SA-27 over the lulsnitz River near Kotschka. The structure was completed in late June. However, it will not be opened to traffic before another eight weeks, when road construction work will be completed.
- w. Eridge Γ 188-F-12 over Haupt Canal near Landing Opened to traffic on 5 July.
- x. Pridge AEB-S-213 over Luetzelbach brook near Frankenberg. One lane opened to traffic on 3 August, second lane under construction.
- y. Eridge F 192-17-6 over the Elde River near Eldenburg. Opened to traffic on 14 June.
- z. Fridge F 86-B-1 over the Mirner River near Furgoerner. Opened to traffic on 3 January.
- 7. The Stein Bridge over the Oder River in Frankfurt/Oder, which was demolished in April 1945, was replaced by a new permanent bridge completed in May 1952. In the meantime, traffic was rerouted over a temporary bridge connecting Lebuser Mauerstrasse and Leopoldstrasse in Frankfurt/Oder. The new bridge is about five meters higher than the destroyed structure. The new bridge and the temporary bridge must not be used by the population; they are guarded by Soviet soldiers who wear green hat ribbons.

1.	Corment. Both bridges were included in the 1953 bridge construction	
	program.	
2.	Corment. This information refers to the Oder river bridge at Creifenhagen-Nescherin, work on the reconstruction of which was started by the Poles in late Pay 1953.	
3.	Comment. This information refers to the autobahn bringe over the Oder River under construction south of Frankfurt/Oder.	
		50X1-HUM
4.	Corment. This project was included in the 1953 bridge construction program.	
۶ .	Comment. The bridge involved is 136 meters long.	•
6.	Corment. The bridges mentioned under a through x were is cluded in the 1955 bridge construction program.
